## **Verse 1:**

I have never known another love like Yours  
Oh it's all I want  
There is not a moment that it won't endure  
It goes on and on  
Even if I run and hide  
You always know where to come and find me  
Dark and light look the same to You  
There is nothing that You can't see

## **Chorus:**

That's how You love  
You will always stay the same  
Yes your love will never change  
I can trust you,  
That's how you love

## **Verse 2:**

There is not a foe that it won't fight for me  
Yeah I watch them fall  
Even when my world is shaking it won't flee  
You're there before I call  
You're faithful  
You've got my name carved in the palm of Your hand  
There is nothing that Your love won't do  
You come running to my rescue

## **Bridge:**

Your love is patient, Your love is kind  
You say I'm Yours and You are mine  
I know that nothing can come between us

You're breaking down every wall You find

I run to You my refuge  
My strong tower, my defense  
You've got me, I'm covered  
There's no more fear

**Vamp:**

A love that never ends  
A love that always stays  
Through the highs and lows  
Your love will never fade
