Verse 1

You're so easy to worship
You're so easy to praise
When the darkness surrounds me
I can still see your face
I will follow Your cloud
Or the fire by night
You're so easy to worship
You're so easy to praise

Verse 2

When desert and trouble
And the pressures refine me
I won't hold back my love
Through it all You're still worthy
Pour my heart out like oil
Pour it out like wine
You're so easy to worship
You're so easy to praise

Chorus

I'll lift my hands
And sing out your praise
I'll give my song to you for all of my days
I love your voice, I love your name
You're so easy to worship
You're so easy to praise

Bridge

Where You go, I will follow you
Where you go, I will follow you
Where You go, I will follow you
