Verse

You fight my battles, and I'll praise
You fight my battles, my hands raised
You go before me, I'm not afraid
You fight my battles, and I'll praise

Chorus

As I lift my hands
You fight the battle
When I shout your name
You come for me
In the midnight hour I sing anyway
You are moving mountains right in front of me
You are rising, darkness flees, the victory is yours

Bridge

When I see weapons forming, I look and see you
laughing
When I see darkness coming, I look and see you
shining
When I hear evil whisper, I hear your voice like
thunder
And I know for sure, the battle is the Lord's
The victory is yours
